

Commitment to Service

K.E. Weaver Petroleum has been serving its customers for over a decade. During this time we have learned a lot about what it takes to

be a successful service provider. K.E. Weaver Petroleum knows the value you place on keeping warm during the cold winter months. We deliver provide more than service and offer you peace of mind that your family's comfort is our top priority. Our staff is

professionally trained and certified and we provide superior customer service.

Service Plan Value

Service plans ensure that you will receive professional preventive maintenance for your heating system. An annual tune-up is included in all of our plans and will increase your heating efficiency and allow you to save on heating costs. Our plans have been designed to be

economical and a good value. The purpose of the plans is to keep your heating and hot water system working at peak efficiency and to keep critical parts maintained. To avoid the risk of expensive repairs take advantage of one of our service plans. Each plan offers a different level of protection and peace-of-mind.

Standard Plan – Natural Gas & Propane – \$199.00 or \$16.58/month

Our Natural Gas & Propane Plan includes your annual tune-up and parts and labor discounts associated with maintaining your heating system at peak efficiency. Service work conducted under the Natural Gas & Propane Plan will be conducted during normal business hours and does not include emergency service.

Parts & Labor Coverage

If your heating system requires service, all of the labor and parts required will be sold to you at a 15% discount. This service is expected to occur during normal business hours. Emergency service will be charged at prevailing rates.

Maintenance & Tune Up

Professional preventive maintenance is strongly recommended annually for all heating systems. Maintaining and adjusting your heating system will help save on heating costs and add years of life expectancy to this expensive equipment. This service tests and adjusts your heating system for maximum efficiency using precision equipment. All safety and operating controls will be checked. Motors and bearings will be lubricated. We will clean the fan and flue pipe to the chimney and chimney base. We will check the ductwork for loose sheet metal or fittings. We will check the air handler, blower, and thermostat operation. When necessary, the system air filters will be replaced.

Additional benefits

Under our Natural Gas & Propane service plan, you will receive priority call status. That means you move to the front of the list for service response when your system isn't working.

As a customer of K.E. Weaver Petroleum, you can be sure you're receiving the highest quality care from trained technicians. Our technicians attend training year round to keep up to date on the latest technology and changes to equipment.
